

Two Dates! Saturday, November 22nd or December 6th 9am-6pm

Heavy Baby Workshop

Presented by Aimee de Ney

Waldorf teacher, doll maker and puppeteer

You will love making this special doll as much as
your child will love that you made it!

Used therapeutically in Germany, a weighted doll has a settling and reassuring quality. Heavy Babies can be made either as a bunting baby, or a baby with limbs that allow it to sit. Filled with millet, and made with all natural fibers, it will bring a subtle quality of weight and warmth to the child who plays with it- they feel like "true" babies!

\$70 for little bunting baby (9am-2pm)

\$85 for bunting baby (9 am- 3pm)

\$110 for limbed baby (9am-6pm)

Located at Fremont Community School in Seattle, WA

Pre- registration and color choice required at (360)485-3677 or
